

## Final Reflection Essay

Please answer the following questions in 8 to 18 sentences:

- Did you add to your general knowledge of data mining and its practical application?
- Did you uphold your personal promise to work each week?
- What did you contribute to your team's case presentations?
- What topic was most interesting to you?
- How did you contribute to the collaborative learning environment of the class? What did classmates learn from you?
- How were you most engaged and participatory in class?

\*\* Please keep in mind, your answers should be personal reflections on the semester. These questions are not a reflection on the instruction staff's effectiveness. The anonymous course evaluations are your opportunity to provide praise, and critiques of the teaching staff.
